PROFILE

I'm Dipanshu, a dedicated Frontend Developer with experience in React.js, Tailwind CSS, and traditional CSS. Currently interning as a Frontend Developer at Web5Lab while pursuing a Bachelor's in Computer Applications (BCA). I'm passionate about crafting responsive, user-centric interfaces and maintaining clean, efficient code. I'm always eager to learn new technologies and contribute to innovative projects that enhance the user experience.

WORK EXPERIENCE

- **WEB5LAB**   2030 - PRESENT
  FRONTEND DEVLOPER (INTERNSHIP)

  - Crypto MultiSender: Developed a tool for batch-sending cryptocurrency to multiple wallets simultaneously, enhancing efficiency and reducing transaction costs.

  - OTGalaxy (P2P DeFi Platform): Contributed to the design and development of OTGalaxy, a decentralized peer-to-peer (P2P) platform, aimed at facilitating seamless DeFi transactions and interactions.
